

vola®

Water. It's our morning wake-up call.
A life-giving ingredient.
The purest of beauty treatments.
An invitation to play.
A deeply calming way to relax.

The VOLA range makes these everyday activities a real pleasure. With its sleek, sculptured lines and perfect proportions, VOLA, conceived more than 45 years ago, is still recognized today as one of the world's leading design icons. VOLA technology and manufacturing are just as unique, delivering unrivalled levels of quality, control and comfort.

vola

This is not a tap.

It's a piece of design history.

Although designed during the 1960's, these taps remain unchanged from Arne Jacobsen's original concept establishing VOLA as the much sought-after design you see today. Although new products have been added to the range, VOLA still stands for timeless design, created by the best designers.

Timeless design

Our story

It's the story of how architect Arne Jacobsen and manufacturer Verner Overgaard joined forces to create something original, beautiful and timeless.

An uncompromising vision

During the 1950s and 60s, leading Danish architect Arne Jacobsen epitomized Danish Modern style by blending elegant functionalism with organic forms. Listed amongst many of Europe's influential buildings are Jacobsen's St. Catherine's College, Oxford and the National Bank of Denmark. However, his vision did not end with the completion of a building. He often designed every element of its furniture and fittings in order to achieve a totally integrated space – classical in its sense of proportion and attention to detail, but appropriate to the modern world. Many of Jacobsen's furniture designs, including the Ant chair from 1952 and the Egg chair designed for the Radisson SAS Hotel in Copenhagen, are regarded as classics.

Partners in design

Verner Overgaard, owner of long established and innovative manufacturer VOLA, was looking for a designer who could realize his idea for a revolutionary new product: a tap with a wall-mounted mixer where mechanical parts are concealed within the wall, leaving only the handle and spout visible.

When Arne Jacobsen came to his attention through his awardwinning Bank of Denmark project, Overgaard knew he'd found a partner as committed to modernist form and function as himself. For his part, Jacobsen immediately saw the new product's potential and its relevance to his own design ethic.

International recognition

The VOLA taps first went into production in 1968. They won international acclaim and design awards from the Museum of Modern Art in New York, the Kunstgewerbemuseum Cologne and the Cincinnati Art Museum, among others.

A modern classic

Technology over the last half century has improved dramatically, in-keeping with the demands and expectations of modern living.

During 45 years of VOLA production, advancements in technical innovation, raw materials and production methods has enabled VOLA to introduce to its range new and exciting products, as well as alternative finishes, in order to meet the ever changing needs of a modern life style.

Having stood the test of time, VOLA continues to remain one of the most sought-after design products worldwide.

Individual design solutions

The VOLA range is built on a modular system comprising valves, handles, outlets, finishing plates and accessories. These components can be used in an infinite number of ways to meet any requirement and create unique design solutions that adapt perfectly to your home and lifestyle.

Great design never loses its integrity. These are investment pieces, with the power to transform a living space: today, tomorrow and for generations to come.

Quality

The VOLA range, engineered from the highest grades of solid brass, gunmetal and stainless steel, guarantees exceptional quality, performance and durability. A choice of 19 stunning, high quality finishes are available ranging from brushed stainless steel, polished or brushed chrome, natural brass to 14 rich colours.

Each stage of the production process from inspection of the raw material, through to the finished tap, is subject to our strict quality control system.

VOLA has the following quality approvals:

Uncompromising excellence -
copyrighted design in a world of imitations

Fully compatible
mixers and accessories
to meet your
changing needs

Choose your style:
hands-free,
a thermostatic mixer,
a pillar tap,
one handle or two...?

A modular system
that is effortlessly stylish,
however it is configured

Quality beyond fashion:
an investment for life
